

**Spokane Washington North Stake
2012 Schedule of Stake & Ward Council Visits (Revised)**

During the year, a date has been set aside for the stake presidency, the ward's high council representative, and stake auxiliary presidencies to go out on visits with members of the ward council and their presidencies. Well before the visits are to take place, the ward council should determine which members or families would benefit from a visit. The ward auxiliary presidencies and quorum leaders should make appointments in advance for the visits. The date for these visits is shown below.
